ReactJS
Python
C
MySQL

SOFT SKILLS

Problem solving
Communication
Teamwork
Time Management

NISHANTH KANNAN S

PROFILE SUMMARY

A passionate and detail-oriented Computer Science graduate with a strong foundation in programming, data structures, and algorithms. Proficient in languages such as Python, SQL and C, with hands-on experience in web development and software engineering projects. Skilled in problem-solving and eager to apply technical expertise to real-world challenges. A quick learner with excellent teamwork and communication abilities, seeking to contribute to innovative projects in a dynamic work environment.

PROJECTS

Password Generator Created by using Python

A password generator is a tool that creates random passwords for user. These utilities simplify the password creation process by preventing common mistakes.

Task Management Web app with User Authentication

Developed a task management web application that allows users to create, manage, and track their tasks efficiently. Implemented a robust user authentication system to ensure secure access and personalized user experiences.

CERTIFICATIONS COURSES

NPTEL certification in "Database Management Systems"
Full Stack Development
Data Structures in C
Problem Solving
Python
MySQL

PROFESSIONAL EXPERIENCE

Java Intern

Emglitz Technologies – Coimbatore
Contributed to the development and optimization of shopping cart billing System project using Java.
